

Jiangsu Sunkoo Machine Tech Co.,Ltd

SUNKOO Machine Tech Co.,Ltd is the leader of PTFE & UHMWPE Extrusion machine in China since 2003. The PTFE machine has export to many countries with stable extrusion for high quality PTFE products. Ram Extrusion machine for continue extruder with unlimited length can be use directly no need to sintering furnace heating. www.ptfe-machinery.com ; info@ptfe-machinery.com

Description	PTFE Ram Extruder Model No.		
	PFLB-20	PFB-80	PFB-150
Machine model	PFLB-20	PFB-80	PFB-150
Process	Vertical Extruder M/c	Horizontal Extruder M/c	
Power KW -Main Motor&Furnace	14 KW	24 KW	33 KW
Range Min - Max Dia	4-20 mm	25-80 mm	80-150 mm Option to 200mm Dia
Tolerance	0-0.2mm +	0.5-2mm +	1-2mm +
Products Length	Unlimited	Unlimited	Unlimited
Production Per Hour in Kg	7+	8+	10+
Electricity Consumption Per H	2	2.5	2.5
Weight of the Machine	930	960	1220
High of the Machine mm	2150	1560	1680
Floor area of the Machine M2	3.5	1.2	1.6
Free Spares	1 set	1 set	1 set
Deliver Period of the Machine after Ordering	30	30	30
Sintering temperature zone	3-5	4-8	8-12
Compressive force [kN]	50-250	100-500	150 -750
Voltage/PH/Hz	380V 50Hz 3P	380V 50Hz 3P	380V 50Hz 3P

Main machine info as following for you ref:

[PTFE & UHMWPE Rod Ram extruder:](#) Continue Extruder OD 3mm - 150mm;OD150mm - 500mm by mould press machine;
[PTFE Tube Ram extruder:](#) Continue Extruder OD 20mm - 500mm. OD300-500mm by mould press machine;

Jiangsu Sunkoo Machine Tech Co.,Ltd

Our advantage & Why select us:

1. Experience of PTFE machine and mould with continue improvement;
2. Expert PTFE extruder in China with high technology;
3. We are specialized in researching and developing PTFE extruder and mold;
4. Process technology instruction to support qualified mass production;
5. Prompt response for after service;
6. Extruded rod/Tube can be use directly no need furnace sintering any more.
7. Extrusion line continue extruder with unlimited length of Rod/Tube.
8. We can supply sintered PTEF powder for extrusion directly with advantage price 100% brand new powder.
9. Easy operation with stable high quality operation.
10. Constant high quality of the products through permanent electrical measurement of the extrusion pressure and precise temperature regulation
- 11*. Key point: Sunkoo will support in process technology and training for extrusion knowledge.
